Dear Hal:

Enclosed herewith are copies of correspondence from Ed Tatro who is looking into the ammo manufactured by the Western Cartridge Company. If he has not yet contacted you in this regard, I am taking the liberty of writting to ask if in your files, there might be something on this.

I have been a bit involved lately and do not recall if I had previously contacted you in regards to this matter. If not, and you have something other than what is enclosed, let me know how I might obtain copies (Hoch ?) and I will let Ed know. Thanks.

Best regards,

Emory
